

## Two Ph.D. positions – one each in the fields of agricultural and forest hydrology

Jan Seibert and I, at the Uppsala University Department of Earth Sciences, are pleased to announce two Ph.D. positions – one each in the fields of agricultural and forest hydrology. These companion positions both have an emphasis on how climate and land use change will influence the amount and quality of water in the nemo-boreal zone. The announcements are attached, but can also be found at the links below.

Please feel free to contact either Jan or I if you have any questions. Time is short though, with a May 30 deadline. So if in doubt, make a minimal application. A more detailed motivational letter can be sent on later.

Kevin

Bishop ([kevin.bishpo@geo.uu.se](mailto:kevin.bishpo@geo.uu.se), <http://www.geo.uu.se/luva/personal.aspx?namn=kevin.bishop&lan=1> )

Jan Seibert ([Jan.Seibert@geo.uu.se](mailto:Jan.Seibert@geo.uu.se), <http://www.geo.unizh.ch/~jseib/aboutme.html> )

[PhD student in Agricultural Hydrology with focus on resolving flow pathways in source-apportionment modeling](#)

at the Department of Earth Sciences

Application no later than 30 May, 2011. UFV-PA 2011/1098

[PhD student in Forest Hydrology with focus on spatiotemporal dynamics in the landscape mosaic](#)

at the Department of Earth Sciences

Application no later than 30 May, 2011. UFV-PA 2011/1099
